Milam Grand Jury Offers Suggestions, Chides Letter Writer

The Milam grand jury and the county attorney's list of 15 suggestions to improve law enforcement in the county was presented to commissioners Monday morning by Co. Atty. Charles Smith.

The suggestions range from offense reports to be made by law enforcement officers to new furniture for the county attorney's office.

The grand jury appended a note to the copy of the list sent to the county judge which said, "No criticism of any official is intended or implied."

The list of suggestions is detailed elsewhere on this page.

SMITH TOLD COMMISSIONERS that a series of letters to the editors of The Cameron Herald and The Rockdale Reporter from Col. James McGowan had made some members of the jury "restive" along with the district judge. He claimed the letters "impugned" the grand jury which called a session Friday and subpoenaed the author of the letters and publishers of the two newspapers.

Smith said McGowan "recanted the thrust of the articles" and apologized to the grand jury and its foreman. He also promised to write an apology for publication in the newspapers. Smith said the grand jury and the

attorney invited members of the press to work with and "decimate accurate information and to work with the jury." Smith said he found "neither very receptive. They took the attitude they were right and would do what they had been doing."

HE SAID REPORTER editor Bill Cooke of Rockdale presented statistics which he had drawn up from county records showing that there were 223 cases pending on the criminal docket. Smith said Cooke "was not interested in the cases disposed of and was concerned only with my administration." He cautioned commis-

sioners about such statistics, adding that according to his records there were 96 cases pending in district court on the criminal docket, of which some 26 were inherited when he took office in 1972. He said a lot of the cases had no records to go on and some of the records show cases pending that have been disposed of.

The county attorney said he did not favor a county-wide patrol as a matter of economics. Twenty-four hour patrol service would cost \$150,000 a year for cars, garages, fuel, drivers, and dispatchers.

Smith said in his view the county has a problem of money to take

care of additional personnel and increased salaries. He said he has one secretary and needs another just to take care of misdemeanors such as hot checks. He said people are aware that increased law enforcement will cost more money in the form of tax dollars.

HE SAID IF THE arresting officer is not trained to make a proper investigation it makes it hard on the county attorney. He added that he does not think the county has a crime wave or organized crime but he feels the problem is of sufficient severity to do something about it.

Smith said he had been asked what

a reasonable salary for county attorney would be and he said \$25,000. Even at this, Smith said he had some reservations about being a full time county prosecutor.

He said increased salary was not the answer, that he should be paid the supplement the state provides and that a district attorney is also needed, perhaps to serve more than one county. He said as it is now the attorneys have to resort to plea bargaining in district court.

In conclusion, Smith said, "We don't have any problem that a lot of money won't cure."

MAYBE THE PARTRIDGE...

Promising and cajoling toward 30 state primaries, at least a dozen Democratic presidential candidates correspond roughly to the verses in that classic carol, "The Twelve Days of Christmas."

Texas will likely go into the 1976 party conventions with Sen. Lloyd Bentsen a favorite-son Democrat and former Gov. John Connally a favorite-son Republican.

At least 11 other Democrats are canceling themselves out by proliferating challenges among: one former presidential candidate and incumbent senator, one former vice-presidential candidate and Kennedy in-law, one former senator and former Democratic Party Chairman, four senators (including Bentsen), three governors, one former governor and one congressman.

Among these, Sen. Hubert Humphrey, the 1968 presidential nominee, chooses not to enter the primaries. He is currently the Demopro's choice to head a 1976 ticket when the primaries bury most of the others. Not among these, Sen. Ted Kennedy, who has promised his mother he would not risk it, may be drafted if all the others fail. He is not entering any of the party primaries.

The lyrics are different, indeed, for the GOP. Ronald Reagan, the former California governor and former Hollywood union organizer, is fielding major challenges to President Gerald Ford in New Hampshire and Florida. Connally says Reagan is leading in both states.

Oklahoma's Sen. Henry Bellmon, himself a former governor, says he prefers John Connally as a favorite-son candidate for the Oklahoma GOP. And given the unease of Reagan-Ford contests elsewhere, Texas GOP'ers well may agree with the Oklahoma and boost the former Texas governor, allowing Texas options through a first-ballot standoff, which will probably see Ford withstand a Reagan run.

A presidential incumbency, even appointed, is a major obstacle to Reagan's candidacy, one which is choking early on a \$90-billion budget reduction proposal, one similar to George McGovern's \$40-billion proposed rebate in 1972 which helped Richard Nixon to a landslide.

Though most observers think 1976 is a Democratic year for the White House, they don't know anything of the sort.

NEWSWEEK's Paul Samuelson cites the advantages of an incumbency during an economic recovery year like Bi-centennial 1976:

"He (Prof. Ray C. Fair) finds that President Ford is economically in good shape, since the most important variable is the rate of real growth in the twelve months prior to the election. To maximize probability of re-election, an incumbent should contrive to have a recession in the spring of the pre-election year. April 1975 seems right on target."

Samuelson notes the professor has examined all the elections since 1892 (Grover Cleveland), reviewing the economics critical in predicting winners. The economic recovery now underway apparently favors the incumbent, though he is an appointed incumbent.

While Reagan has walked both sides of the street in his union and gubernatorial days, the Ford incumbency walks both sides of the street in the President's "Mr. Clean" conservatism and Mrs. Ford's mild women's liberation image. The GOP hasn't quite seen anything like this combination.

Connally, of course, has been in cabinets of presidents of both parties. And he is decrying the lack of imagination in the party, an example of which may be, this mish-mash election year, Gerald Ford's candidacy for election in his own right. Connally further notes only 18 percent of the American electorate claims GOP membership.

The Democrats are strung out with "formers" and promising liberals, but 1976 is not a promising year for liberals. Even if Ted Kennedy is drafted, he would more likely be a vice-presidential candidate, which would be unacceptable, though safe in his view.

All this is not to ignore another former Democratic senator, Eugene McCarthy, who is already out on an independent candidacy. While George Wallace promises to stay in the Democratic column and John Connally promises to stay in the Republican fold, these men are capable of launching third-party efforts themselves.

Any political maltreatment or despondency on the part of either man might turn him out of these ranks and to his own.

None of this reduces the number of verses and choral litany in the Democratic "Twelve Days of Christmas": Wallace, Humphrey, Bentsen, Udall, Sanford, Carter, Bayh, Church, Shapp, Jackson, Harris, Shriver, not to mention various favorite sons in various states. And Kennedy.

If Ronald Reagan scores major primary triumphs, convincing GOP stalwarts of strength but no constancy and demonstrating the volatility of Ford's incumbency, the Republicans might look for alternatives beyond either man. This is remote among the remote.

It is more likely political stability will dominate both party conventions, beyond primaries, and possible that Midwesterner Gerald Ford will share the GOP ticket with Californian Ronald Reagan, a combination capable of making the Democrats wish they never heard of these 12 candidates, "Twelve Days..." or Christmas.

Or, maybe the partridge will run.

Masked Bandit Hides In Car, Robs Local Man

A bandit wearing a ski mask and hiding in a car outside the Starlite Club Monday night robbed a Cameron man of some \$720 at knife-point.

Police reported that the thief robbed Joe Hickman of Cameron after threatening him and his companion, Keith Burnett, with a knife. The man was hiding in the back seat of Hickman's car and forced Hickman to drive to the Royal Seating plant on Industrial Boulevard where he robbed him.

The robber made the two men get out of the car and drove off, leaving them behind. The car was later found by police on 22 Street.

Police also reported a burglary at Garcia's Place on South College Friday night. The burglary was discovered at noon Saturday.

Taken from the tavern were ten cases of beer, records from the juke box and money from the pool table, cigarette machine, and other machines.

Open House For Tax Office

The new Milam County tax office will host an open house Thursday (today) from 2 until 5 p.m.

More County Services To Demand Increased Income

County commissioners and the county tax assessor-collector this week are studying means of obtaining more money for the county because of increased calls for service and additional salaries.

Increase of taxes was brought up at a regular commissioners meeting Monday morning, but Valter White, county tax assessor-collector, said he didn't believe in raising taxes to raise salaries.

In talking to White, County Judge O. B. Harden said several groups are asking additional salary for county attorney, assistant county attorney, deputies, sheriff, and constables. He said the county will need more money and there is no surplus to take care of additional costs. White said utilities for the courthouse, jail, and tax offices alone will run some \$15,000 a year.

IT WAS NOTED that some property in the county is not even on the tax roll and other property is undervalued. Mention of a field assessor brought the comment from White that it would cost "a lot of money."

White said it was too late to get new tax renditions for 1976 and said he didn't know when his office could get new renditions.

Harden pointed out that the county may need as much as 50 percent more income. Total tax valuation

for the county is around \$40 million which produces about \$400,000 tax income. Harden said the city and schools get more money from their valuations than the county does.

HE ASKED WHITE about the 3 percent discount offered tax payers for paying taxes in October, and White said dropping the discount would produce \$12,000 to \$15,000 more income.

Harden asked White to look at

Jury Lists Suggestions For Improved Law Enforcement

The following is a list of suggestions to improve law enforcement in Milam County which was drawn up by the Milam grand jury in a Friday, January 9 session, assisted by County Atty. Charles Smith. The list was presented to county commissioners Monday.

1. In every case, Sheriff's Department and Police Departments of Incorporated Cities of Cameron, Rockdale and Thorndale should utilize a uniform Offense Report, prepared in Triplicate. One copy together with physical evidence, should be delivered to the County Attorney's Office within 24 hours of the commission of the offense.

2. Police Departments of Incorporated Cities should notify Sheriff's Department immediately upon any reported Felony Offense.

3. Notify County Attorney, immediately, day or night as to any offense of first or second degree felony nature (such as murder, aggravated armed robbery, rape, etc.).

4. County Attorney, County Judge and Sheriff should determine the feasibility, utility and cost of employing a full time license investigator to work in conjunction with County Attorney and Sheriff; and to report their findings to next Grand Jury.

5. County Attorney and County Judge (Commissioner's Court) should determine the advisability and cost of having an Assistant County Attorney with the full time responsibility in reference to Trial Dockets, out-of-office investigations, etc.; and to report their findings and recommendations to next Grand Jury.

15 Indictments Returned By Grand Jury

The Milam grand jury meeting Friday, January 9, returned 15 indictments against 14 persons. They included:

Henry Beckwith Jr., one count aggravated robbery by deadly weapon and one count possession of prohibited weapon;

Michael Wayne Mitchell, burglary; Jessie Miller, burglary; Tyrone Miller, burglary; Richard Allen Todd, burglary; Richard Ralph Roe, burglary; Cecil Clarence Kite, burglary; Mona Gruebaugh, carrying weapon licensed premises;

Roy E. Greubach, aggravated assault with deadly weapon;

Mark L. Newsom, felony theft; Jim C. Turnage, felony theft;

Willie Parker, forgery; Roy H. Jones, forgery; Ralph W. Cook, felony theft.

6. County Attorney and County Judge to analyze and determine feasibility and cost of additional clerical worker in County Attorney's Office to handle routine matters, including "Hot" Check cases, so as to free the County Attorney's secretary for more serious criminal matters.

7. Provide for reimbursing County Attorney on per mile basis for use of his personal automobile in investigative travel within the County (12¢ per mile).

8. Purchase for joint use by County Attorney's office and Sheriff's Department office of a Land Polaroid Camera and related equipment designed specifically for Criminal Investigation.

9. Commissioner's Court to cease retaining in the Officer's Salary Fund salary supplement paid by the State of Texas for County and District Attorney's salary, so as to enable the County Attorney to spend more time as Prosecutor.

10. For County Attorney and County Judge, together with District Judge, to analyze and determine the feasibility and cost of retaining a Public Defender so as to expedite the trial

More Candidates File For Posts In May Primary

John B. Henderson, Cameron attorney and former county attorney, has filed for the position of county attorney in the May Democratic primary election, and more constable candidates have announced their filings.

Right now races have developed in several precincts for constable, with three candidates filing this week. The list of candidates reads:

DISTRICT - Don G. Humble for District Judge, 20th Judicial District, W. C. Wallace not seeking re-election.

COUNTY - John B. Henderson for county attorney, Valter White, tax assessor-collector; Leroy Broadus, sheriff.

PRECINCTS - Adolph Gresak and Herman Dornier Jr., Commissioner Pct. 1; Gerald Vinton and R. C. Richards, commissioner Pct. 3.

CONSTABLE - Leonard Pelzel, Pct. 7; Maurice Lowrey and Tommy Chamberlain, Pct. 1; George T. Vickers, Rex B. Jones and Coy Shuffield, Pct. 2; Warren E. McCall and John Zajicek, Pct. 6; Wayne Brinkley and P. L. Paris, Pct. 8; H. N. (Spud) Caywood, Pct. 4.

JUSTICE OF THE PEACE - Jim Swanzey, Pct. 3.

weigher bonds for Ben Lagrone and Linda Reese and authorized County Auditor John Andres to purchase additional items needed for the new tax office.

Commissioners transferred \$40,000 from the general road and bridge fund to the precincts. They accepted a letter of resignation from Justice of the Peace Ransom Fuesel of Pct. 3 and appointed Jim Swanzey to serve in his place until the November election.

of criminal cases, (the law requiring every Defendant to be represented by Counsel, or Court appointed Counsel), and to report to the next Grand Jury the results of such study.

11. For the County Attorney, County Judge, District Judge and Sheriff to analyze and determine requirement and cost for employing a full time Adult Probation Officer (the Sheriff is currently serving as ex-officio Probation Officer without cost to the County) which duties are not amenable to and probably intrude upon other areas of responsibility of the Sheriff's Office.

12. For the County Attorney to conduct a minimum of two workshops each calendar year involving all law enforcement personnel in the Sheriff's Department and City Police Departments and Constables so as to keep law enforcement personnel abreast of current changes in the criminal law, particularly in reference to arrest, apprehension and searches and seizures.

13. Require the attendance of all Constables and the Chiefs of Police of Rockdale, Cameron and Thorndale, upon future Grand Jurys such officers to bring with them copies of all Offense Reports in which he or his Department had a part.

14. Secure for County Attorney's office additional filing cabinets and office furniture.

15. Purchase for County Attorney's office storage cabinet with lock for storage and preservation of evidence, confiscated property, etc.

Beyond Magic And Rhetoric...

The political process will decide how acceptable are disclaimers in public service. The process also ought to establish one means to settle the problem: more money for "law and order."

Now we shall see how serious the public is about solving a problem in county law enforcement before it becomes larger. It is true more funds are needed for salaries for constables, deputies, county attorney and sheriff's offices.

But more money is only one requisite. It is also an attitude about modern enforcement. The idea of "one riot, one Ranger" simply no longer applies in any Central Texas county, including Milam.

And a wave of grand jury indictments would only emphasize the inconsistency of enforcement.

The Milam Grand Jury is dependent upon information provided by investigating officers. And in effect, there are few investigating officers in the combined staffs of county sheriff and county attorney. Much of the time is spent in administrative work.

Grand Jury spokesmen have posed the question of enforcement conditions in a December commissioners meeting. The county attorney this week has suggested some solutions. He also says the press arrogates to itself a sense of righteousness in this question.

What the press does is cover public meetings and

public records. And those public meetings and records open up discussions and comment outside the legal cloister of the grand jury. At least, the public, whose citizenship is capsuled in that grand jury membership, is getting a glimpse of the perimeters of current criminal justice in Milam County.

This newspaper sees the responsibility of such questions being properly screened and placed in the hands of the Milam County Commission, which sets budgets for various departments if not elected officials' salaries. The Commission can advise and encourage and bring together the forces to elevate the salary structure of law enforcement and prosecution officials. A review of neighboring counties of similar valuation and population would give guidelines.

The money question is one going to the people of Milam County. Indeed, if property owners see major need for modern law enforcement, they also see the need to provide resources.

We remind again this is not a "hot potato" but a question about public safety, private property being "ripped off" and public funds to deal with the question.

We kid ourselves, we Milam Countians, if we think the question is going to vaporize by magic and rhetoric. It is a question of day-by-day application of modern criminology, by trained, fairly paid public officials.

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to
Review the Congressional Record Daily)

FAVORS MINIMUM CASH INCOME OVERWELFARE

Senator George S. McGovern (S. Dak.) "... With an ill-conceived national plan accomplishing little more than higher prices and unemployment, I am glad that we have public assistance program like food stamps to provide at least help to families trying to make it through hard times. Nevertheless, I feel very strongly that there is a pressing need for wholesale reform of the entire welfare system. ...

"In fact, I have been hearing and reading more and more that the ultimate answer to our welfare problems lies in a straight cash grant program based upon need and measured by income with the work requirement for people who are able to work. This proposal, centering on the merits of a national guaranteed minimum income is

similar to the very one I raised in 1972. ... "I ask unanimous consent that (the editorial in the Rapid City Journal) be printed in the Record." (Excerpt follows):

Minimum Income Plans is a Way to Go'

Attacking the problem of soaring welfare costs won't be easy. But it is time to consider a guaranteed minimum family income program on the national level.

Right now we are guaranteeing minimum incomes at five times the cost and many times the administrative bureaucracy that a simple minimum income program would cost. On the federal level there is Aid to Families with Dependent Children costing \$4.5 billion a year; Supplemental Social Security Income costing some \$4 billion, and the National School

Lunch Program at \$1.8 billion.

On top of these are asserted state supplemental aid programs and city welfare operations whose extent and ineffectiveness almost defy comprehension.

Tens of thousands of people are administering, monitoring, and working in a myriad of existing welfare schemes which adds greatly to the cost.

How much better it would be to substitute a simple cash grant, based on need, measured by income and payable only to those who meet a strong payable work requirement if they are able to work.

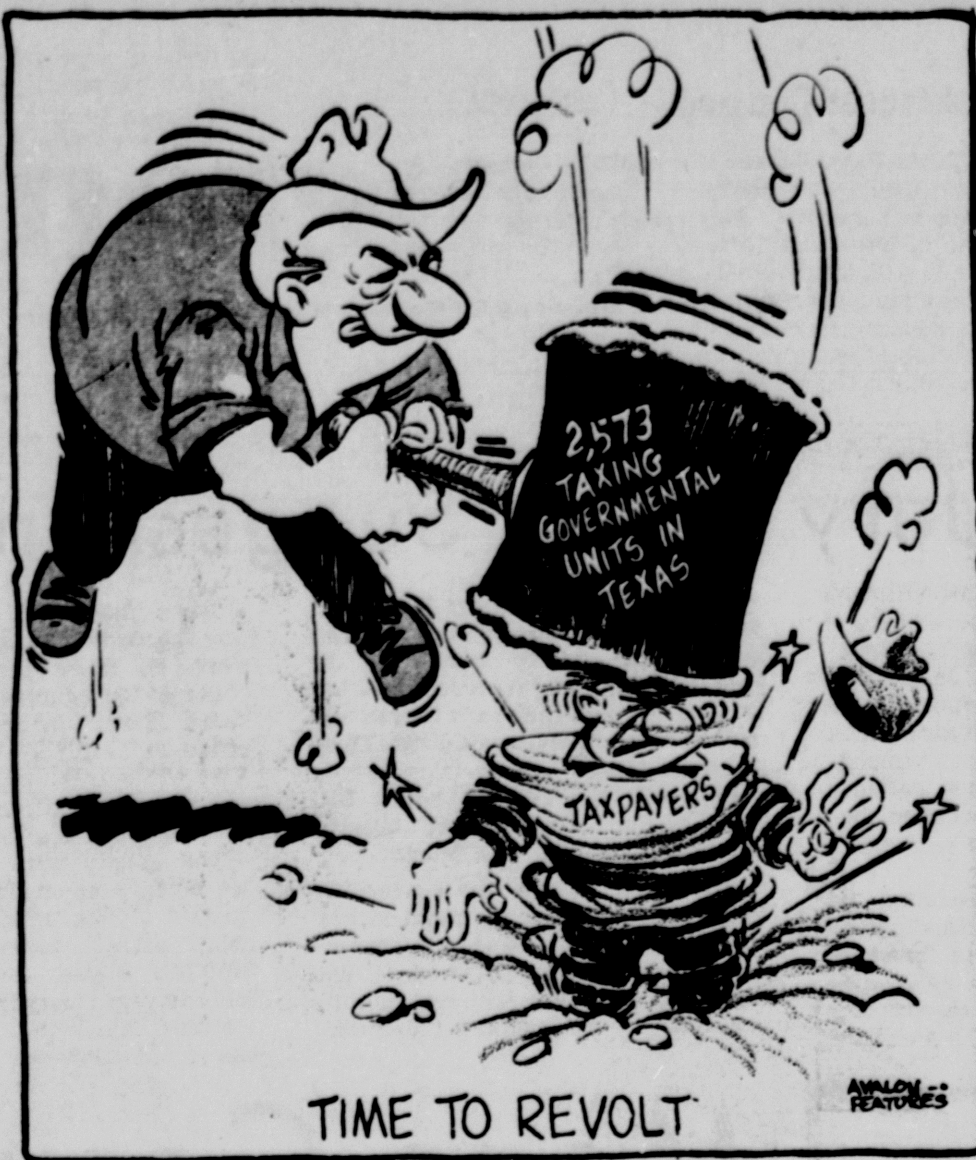

The rising costs and unworkableness of present welfare programs make the minimum income and idea whose time has come.

CRUMP'S GRASS ROOTS COMMENT

A change in plans always results in exchanging one set of problems for a different set of problems. A one-state test case of the minimum cash income payment plan might be in order.

An old Roman superstition held that May was an unlucky month for weddings.

Senate Resumes Carrillo Trial

The Texas Senate resumed its long-delayed trial of the O. P. Carrillo impeachment case after taking steps to shorten the proceedings.

In spite of warnings by their counsel, Leon Jaworski, senators voted to accept the entire transcript of a Judicial Qualifications Commission removal hearing on Carrillo for use in the trial.

Attorneys estimated use of the JQC testimony and exhibits may shorten the Senate proceeding from the expected six weeks or more to three.

Meanwhile, the Judicial Qualifications Commission continued to move forward on its own course toward ousting the 229th district judge from office.

Carrillo's attorney, Arthur Mitchell of Austin, made clear he will try to show the impeachment effort was launched as the result of a political break between the Carrillo and George Parr factions in stormy Duval County last year.

Carrillo has been suspended from his court since last August when the House of Representatives voted articles of impeachment, but he continues to draw full pay.

Bentsen Starts

U. S. Sen. Lloyd Bentsen began his re-election campaign with a two-day barnstorming tour which ranged from Houston to the Panhandle and from Dallas/Fort Worth to San Antonio.

Bentsen also campaigned in Austin, Lubbock, Amarillo, Abilene and Laredo.

Senate Inquiry

A new task force is investigating tangled state Se-

nate financial affairs over a five-year period.

The inquiry is part of the independent investigation set in motion by Atty. Gen. John Hill after indictment of Senate Secretary Charles Schnabel on charges of theft and misconduct.

Senators voted last week to keep Schnabel, who has been their chief administrative officer for 20 years, on the job pending trial on the charges.

Lease Sales Set

The School Land Board has scheduled oil, gas and sulphur lease sales February 3, June 1 and October 5 to encourage domestic exploration and development.

Total bonuses received from three oil and gas lease sales last year came to more than \$11.8 million.

Primary areas of interest in the 1976 sales are the lower Laguna Madre and the central coastal region near Matagorda Island. The latter has been restricted to development because of activities on the now-abandoned U. S. Air Force Base and bombing range.

Hearings Begin

The Railroad Commission will start a series of hearings February 3 in Austin and Dallas which could have significant impact on shippers of packages weighing from 100 to 350 pounds.

Nine carriers seek to show present service is inadequate. More than two dozen carriers already operating protest the applications.

Courts Speak

The Texas Supreme Court refused to grant Texaco Inc.'s application for writ of error in a case that could have cost the state \$30.8 million in franchise

tax revenues. The decision again upheld constitutionality of the state's method of collecting franchise taxes from multi-national corporations.

In another case, the high court affirmed a \$134,156 judgement against Texaco, favoring a Sweetwater man hurt when oilfield equipment fell on him in a warehouse.

Court of Criminal Appeals reversed a Hillsboro murder case because a divorce petition filed by the slain woman was read to the jury by a prosecutor.

AG Opinions

Salaries of state employees and officers may not be supplemented unless the source of the supplement is reported to the Secretary of State, Attorney General Hill held.

Comptroller Bob Bullock said, on the basis of the new opinion, he will issue no state warrant to personnel receiving supplements from unidentified sources.

In other recent opinions, Hill concluded:

Examinations given by the Merit System Council to prospective employees are confidential by law and excepted from the Open Records Act.

Appointments

Gov. Dolph Briscoe reappointed William B. Blake more II of Midland to the Public Safety Commission for a six-year term.

Ray D. Payne will head the new Texas Railroad Commission surface mining and reclamation division.

Gerald P. Coley of Houston was appointed chairman of a special State Bar committee to study the American Bar Association proposal to relax restrictions on lawyer's advertising.

Briscoe appointed Dr. Nathan Hale Pepper of Galveston to the Texas Board of Physical Therapy Examiners.

And he named William W. Fisher of Houston to the Polygraph Examiners Board.

Bill Wright of Austin recently was picked by U. S. Sen. Lloyd Bentsen to head up his 1976 Senate campaign in Texas.

Richard W. Harrison of Hughes Springs will head the attorney general's tax division.

Sen. Lindon Williams of Houston is serving as general chairman for the Texas Medal of Honor Grove Committee. The Grove, in Valley Forge, Pa., is a permanent memorial to war heroes.

Short Snorts

The state's unemployment rate dropped near the end of the year to six per cent. National rate was 7.8 per cent.

Domestic oil and gas men drilled more wells last year than anytime since 1966.

OLD PHILOSOPHER

Editors' note: The Old Philosopher on his Johnson grass farm on the Brazos sends word that he's still not quite able to write a column on his own this week but has pulled one out from several years ago in the hope you might find it entertaining.

Dear Editor:

According to an article I read in a newspaper which blew against my back door and I had to pull down any way to see out -- I know where that loose board is on the step but I like to see it before I put my foot on it -- seventy percent of the U. S. population now lives in or near big cities.

As you can see, this leaves 30 percent in small towns and the country, which is all right with me, as it's not the percentage that counts, it's the quality, and when it's not the quality, it's the distance apart, which sometimes is nearly the same thing.

But the most important

thing about the article was its statement that in 40 years all these big cities will double in population.

I don't see how the cities can stand it. I never heard of solving the problem of over-crowdedness by crowding in more. What I mean is, go into any big city and try to imagine it with twice the traffic snarl it has now.

Furthermore, I saw a television report the other night showing one block in one city with 1600 people living in it. You try to picture 1600 people living in once block in Cameron and then multiply that by a few more blocks and while I don't know what you'd come up with, it's not for me. I like my fellow man, but not that many that close.

I understand that the main purpose of most big cities is to keep growing; any time a census report shows one has gained in population its newspapers come out with big headlines, but it seems to me the cities may be carrying this too far. If they all double in size in 40 years, they'll be building highway loops half way around the country just to by-pass them, and a man in the country wanting to get another spot in the country will have a choice of driving 200 miles to get around one or losing a week trying to go straight through.

I don't know that there's anything that can be done about this, or should, but it's a problem I intend to watch from a distance.

Yours faithfully,
J. A.

Film Shows Mountain Man, Grizzly

Sun International's "The Life and Times of Grizzly Adams," the fictionalized portrayal of the life of James Capen Adams, mountain man and grizzly bear trainer of the 1800s will open a limited engagement at the 77 Drive-In theatre in Cameron on Sunday, Jan. 18.

The film stars veteran actor and animal trainer Dan Haggerty. It conveys the touching and often amusing story of a man who discovers the beauty and simplicity of nature while learning to make the wilderness his home.

Supported by Don Shanks and Margie Harper, Haggerty's role also involved working with a 450 pound grizzly bear named Bozo who plays the part of the animal that accompanied Adams for most of his life.

Director Richard Friedenberg utilized many weeks of filming near the mountain resort of Park City, Utah, occasionally with location crews anchoring themselves to mountain cliffs, and placing cameras in raging white water to capture the scenes.

The combination of these rugged locations and Friedenberg's experienced wildlife crew, recreates the story of Adams' commitment to his lifestyle and the adjustment he made to gain the confidence of his grizzly companion.

The true-life Grizzly Adams left civilization for a life in the wilderness with animals who had never before seen a human being. The film establishes the same reverence for nature and the outdoors that was to make Adams a legend. It is definitely entertainment for the entire family.

The Texas Farm Bureau's second annual commodity conference, scheduled Jan. 20-21 at the Villa Capri Motor Hotel, will feature talks by recognized authorities in private industry, government and agriculture, according to TFB President Carrol Chal-

The 129 chairmen of county Farm Bureau commodity divisions for peanuts, dairy, cotton, and rice have been invited to the conference which will get underway at the Austin hotel at noon on

Jan. 20 and adjourn at noon
the following day.

Chaloupka said the main purpose of the meeting is to bring latest information relating to the four commodities to the county farm leaders. The local commodity chairmen will also review current Farm Bureau policies and make recommendations to the TFB Board.

Plan To Attend Cow-Calf Clinic

By Bill McCutchen

Keep in mind the Central Texas Cow-Calf Clinic scheduled for Jan. 23 at Bode's Livestock Commission Company in Milano.

This is one of the best beef cattle programs you will have the chance to attend and it is in our back door.

The Milam County Farm Bureau and Ag Committee of the Cameron Chamber of Commerce are assisting the Beef Subcommittee's of Milam, Williamson, Burleson, Bastrop, Lee, and Travis counties in putting on this event.

BIG MEETING

Members of the Blackland Income Growth (BIG) Program, sponsored by the Texas Agricultural Extension Service, will converge on Waco for the 1976 annual meeting on Jan. 20. Registration for the meeting will begin at 8:45 a.m. in the Waco Convention Center. J.G. Dobbs, chairman of BIG from Grandview, will kick off the meeting at 9:35 a.m. with a welcome and announcements.

Beginning at 9:45 a.m., a slide-and-sound presentation developed by the Texas

Department of Agriculture will be shown. Following the presentation, John C. White, commissioner of the Texas Department of Agriculture, will speak on "A Bigger Dollar in Texas Agriculture's Future."

David Cox, vice-president, Cotton Inc., from Raleigh, N.C., will address the group at 10:45 a.m. on "Making It Big with Cotton."

At 11:15 a.m., Dr. Ronald Knutson, economist-marketing and policy and research, Texas Agricultural Extension Service, will speak on "Who Controls Farm Policy?"

Beginning at 11:45 a.m. there will be a dutch-treat barbecue luncheon.

State Rep. Joe A. Hubnak of Rosenberg, chairman House Agricultural Committee, will speak on "Creating a Favorable Climate for Texas Agriculture" at the luncheon.

Of particular interest to livestock producers and dairymen will be a panel discussion beginning at 1:30 p.m. entitled "Brucellosis in Texas: Problems and Prospects."

Storage Built In Headboard

Extra storage space is welcome anywhere in the house, but especially so in the bedroom, where many things accumulate.

An idea for added space is an adaptation of the bookcase headboard. The bed stands against a room divider with shelves of western wood for books, radio, clock and other items.

The other side of the divider is fitted for a wardrobe and can be used as a changing area.

SAFETY CORNER

A Ground Fault Interrupter (GFI) protects from serious electrical shock even when you're standing on wet ground. It breaks the circuit whenever stray current (as little as 5 milliamps—so small it's harmless) flows through a tool or any object not a part of the normal circuit. GFIs come in portable units for use in any outlet or wired-in units in a circuit breaker box. Check with your electrical distributor for details.

Pest Management Programs Planned For Milam County

Cotton and grain sorghum producers are invited and urged to attend community meetings if they are interested in the 1976 Pest Management Program, according to Robert E. Glodt Jr., County Extension entomologist.

In Milam County the meetings will be held during the week of January 26-30 at the following locations: January 26--Buckholts and Branchville, 12:30 p.m. at the Branchville store.

January 26--Buckholts, 7 p.m., at the Modern Gin. January 27--Cameron and Burlington, 7 p.m. at the Farm Bureau office in Cameron.

Applications will also be available at many of the banks and gins located in Milam and Williamson counties. If you cannot attend the meeting in your community, application forms for all communities will be available at each community meeting.

LARRY MAHAN: WORLD'S CHAMPION ALL-AROUND COWBOY

Conlee's Top Hand was the Number One Yields in nine Texas official experimental stations.

Here's a real winner... a free sack of Top Hand with every ten you buy... and, a famous Buck Muskrat Knife for early bookings.

That's my offer. I'm Larry Mahan. I've misjudged a lot of broncs in my time, but there's one thing I'm sure of.

When it comes to making you a bundle of profit, Conlee's Top Hand grain sorghum is "a cut above the rest."

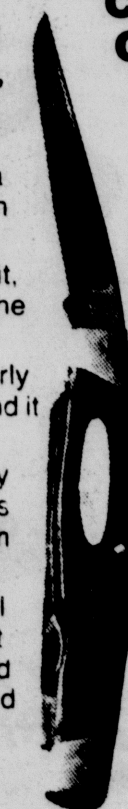

Top Hand is a yellow endosperm, medium to early maturing hybrid. It's disease and drought tolerant, and it comes on strong with irrigation.

Top Hand produces big, high quality heads that dry fast, thresh clean. And, it really stays with the Texas weather 'cause it has an extra large root system that's stout as a bull.

Plant Top Hand this season. Convince yourself it'll out perform all the rest. See your seed dealer about my offer right away. A free sack of Conlee Top Hand... and a \$13.00 Buck Muskrat Knife any man would be proud to carry.

See your dealer or call Conlee Seed, Texas Toll Free 800-792-2215

CONLEE It's a cut above the rest. SEED CO., INC. P.O. BOX 7247 · WACO, TEXAS 76710

HERE IS WHAT SOME TOP CENTRAL TEXAS MILO GROWERS SAY:

IRA BELL, JR.—BASTROP

I planted Top Hand row and broadcast for the 1975 crop year. Row yielded 4000 lbs. and broadcast 3500 lbs. I've planted Top Hand for 6 years and will plant all of my acreage in it again for 1976.

The combines say it thrashed real good and cleaned out mighty good. I would recommend it.

E.C. BOECKER—BUCKHOLTS

Top Hand yields as well or better than any other hybrid I've planted and it is consistent year in and year out.

FRED RICHTER—THRALL

I like Top Hand because it is consistent. It's about the highest yielding hybrid we have found for year after year production.

In 1975 we got a good stand the first time we planted, and several of my neighbors had to replant their competitive hybrids.

IN A WORD—IT'S DEPENDABLE.

MARVIN LENZ—TAYLOR

I plant Top Hand because year in and year out it has been one of the highest producing hybrids I have found. I like the short, sturdy stalks, and excellent root system.

After all—a top yield is great but it has to be in the elevator before you can cash it in.

KATHYRN FUHRHOP, seated at left, met with the senior citizens Tuesday to discuss the March of Dimes campaign and the responsibility of the senior citizens to the fight against birth defects. The field officer for the Central Texas office of the MOD stated that although the senior citizens are beyond the child-bearing age, birth defects still affect them by way of their children and grand-

children. The group was urged to help in the fund raising drive by donations and by education of friends and relatives about the dangers of birth defects and the work the March of Dimes is doing to help prevent such tragedies. The senior citizens were also shown a film on some recent advances in the field of birth defects prevention.

March Of Dimes Works Toward Prevention Of Birth Defects

January is National March of Dimes Fund Raising month with the Cameron drive starting last Thursday and continuing through Jan. 31 with Marie Crouch and Regina Hairston as chairman and co-chairman.

The March of Dimes' major objective is the prevention of birth defects. Money from the fund raising drives is used for research and education concerning birth defects, community service events, health occupation scholarships, and patient services.

Forty percent of the money raised by the Cameron drive will stay in this area with 60% being distributed throughout the country for various grants and medical

service programs developed to help in the conquering of birth defects.

The MOD has been concerned with birth defects research since 1958 - after 18 years in polio research. The MOD is the only national health organization to actually accomplish what it set out to do - to conquer polio.

After this fantastic achievement, attention has been focused on birth defects and major advances have already been made in pre-natal diagnoses of birth defects and pre-natal treatment for disease.

Kathryn Fuhrhop, a national MOD employee and field representative for the Central Texas Office stated that the problem of birth defects is five times greater than polio.

The national MOD is not classified as a charity organization, but a National Health Agency that deals primarily in research and is mostly composed of volunteer workers.

Ms. Fuhrhop serves as a liaison between the MOD staff and the volunteer workers. She works within a 50-county area, advising, training, and inspiring the many volunteer workers in each of the counties.

Activities in the Cameron area will include a block-by-block drive as well as a business drive this month and a Walk-A-Thon in March. Financial statements showing how all funds are used are available through the local chapter.

Not everyone has caught the spirit of this Bicentennial Year. There's a cynic in town who is already complaining about our emphasis on "liberty — and that junk."

He's the same cynic, incidentally, who has been heard to berate "religion — and that garbage."

But the shouting of cynics cannot change the fact that these two hundred years of American history stand on the foundations of freedom and faith.

This is the heritage we carry forward into our third century. Always remember that there are those who wish they were free to worship with us in our churches every Sunday!

O J Thomas Girls Pound Giddings

The roundball continues to bounce in favor of the OJT girls as they picked up wins over Giddings in both the seventh and eighth grade games.

It was a sound 29-15 thrashing that the 7th grade issued to Giddings followed by another whipping 34-13 in the 8th grade game.

In the 7th grade game the OJT girls had gained a 12-4 first half advantage. In the 4th quarter the girls contin-

ued pumping in field goals and it was a sound win. Denise Kelley pumped in 18 points followed by Betty Sue Chubb with 7. Gladys Cavil and Cindy Crouch had 2 each.

Renee Hillman had an excellent night rebounding for OJT and kept the game in hand for the guards.

Vicki Brashear and company did a job on Giddings in the 8th grade contest. Brashear produced 20 points

and Pam Kimbrel tossed in another 14 points.

The big third quarter iced the game with the OJT girls scoring 13 and holding Giddings to 0.

Brenda Orsag had an excellent night rebounding and passing the ball off. Defensive standouts include Romona Kelley and Vikky Brown.

Yoe Freshmen Down Rosebud-Lott

The Yoe High freshmen and junior varsity teams split wins with Rosebud-Lott in Friday night action. The Yoe freshmen claimed a 42-31 win over the Cougars and the Yoe JV lost a thriller 63-64.

In the freshmen game Edward Johnson led the way in the scoring department blazing the net for 15 points followed by Ronald Cobb with 7.

The Yoe fish outscored the Cougars in the 2nd quarter by 8 to take a 20-13 half time lead.

In the third quarter the Cougars narrowed the gap

and came within 4. But the fourth quarter the Yoe cagers excelled and iced another district victory.

The Yoe fish went to the free throw line 25 times and popped 12 points while the Cougars gained 10 points from the free throw line.

In the JV game the Yoe-men lost to the Cougars by a one-point deficit that took the contest down to the final buzzer. The Yoe-men lost to the Cougars earlier in the year.

At the end of the first half the Yoe-men were looking at their first deficit, 21-22. At the end of the first quarter the Yoe-men were down by 2.

Austria Prepares For Olympic Games

By Robin Gedy

INNSBRUCK, Austria While preparations for this year's summer Olympic games in Montreal have been plagued by major difficulties, the greatest disaster to hit the Winter Olympic site has been damage to the roof of the ice-skating rink.

Innsbruck is approaching the opening of the Olympic on February 4 in a dream of efficiency and only a freak storm, which lifted the bubble-top roof off the skating rink, has given the organizers cause for concern.

The damage was repaid in 15 days and only resulted in a minor delay in the training schedule of Austrian skaters. All major construction for Innsbruck's second olympiad in 11 years has been completed and organizers say several installations were ready in November, three months ahead of time.

Having hosted the 1964 Winter Olympics, Innsbruck only had to construct an Olympic village and rebuild the combined toboggan and bobsleigh run. Much money was saved because of the existing ski jumps, runs and a stadium, which needed only slight renovation.

Although the organizers expect major snow falls in the middle of this month, emergency plans to shift 560,000 cubic feet of snow from pockets in the Brenner Pass area may be put slowly into operation this week.

Security is likely to pose the biggest problem for the organizers, especially after the recent attack on Opec headquarters in Vienna when 10 senior oil ministers were taken hostage.

The memory of the attack on Israeli sportsmen at the 1972 summer games in Munich, only 100 miles north of here, is another reason why 2,500 security officers will guard the 2,000 athletes during the games. The village will be sealed off by a 2.5 yard high fence and patrolled by guard dogs.

The picturesque valley town of Innsbruck lies close to the Italian, West German, and Swiss borders and is, therefore, expected to attract thousands of day-tripping spectators, causing unprecedented frontier hold-ups.

DALLAS...

The only person still questioning whether Dallas is awesome is Howard Kosel. Maybe Dallas isn't awesome, and just maybe Robert Newhouse isn't the best runner in the NFL but let's look at the facts--they are in the Super Bowl.

A big send-off at Love Field should show how proud the Dallas fans are of their team. Scalping of the Super Bowl X tickets is a problem for fans interested in attending. The price is around \$200-\$300.

At that price I think Phyllis George and company can keep the television audience at ease. Phyllis said from the outset of her first year of TV commentation that the Cowboys had a chance.

Very few people took the Dentonite very serious and only until that cold day in Minnesota did her point come in clear.

It looks like smiling Tom Landry and team will have a good chance at their second Super Bowl title.

This writer is for the Cowboys and on Super Bowl Sunday, well, I even like smilin' Tom.

RUSH'IN OR...

The Russians were rush' in when they challenged our pro hockey teams prior to the Winter Olympics. And out of the 8 games played, only one pro team came out on top.

That win came short of a team walk-out by the Russians. This was after the Russians questioned calls by the pro-referees. During the game Henry Kissinger was needed to settle another international dispute.

Looking at the Olympics, I hope the U. S. teams are better prepared than the pro teams or it could be a disaster.

grace. It's hard to judge who are amateurs in the Olympic games. And after viewing the Russians they sure play like old pros.

POOLE SAID...

"We were able to beat Rosebud-Lott 59-51, and 2 feel they played a real fine ball game. Our play was somewhat sloppy."

"We were not making a consistent effort, and were not getting position for rebounds, were not mowing on offense."

"This may be attributed to our late start in football which has allowed us to play only 2 games at home out of 13, and for some reason get a bit more nervous."

"We have had a little illness including myself, but hopefully we will begin to get it together as this first half of district play. We have had to play four games away from home."

"We play Manor Tuesday and they will be looking to upset us. We have one illness as Jafus White missed school and workout Monday."

PUCKETT SAID...

"Last week I was real pleased with the junior varsity forwards. Monday night we didn't play defense, but we will continue to work on this in workouts."

"Consistency is the problem. With the junior varsity Tullulah Green does a good job. In the Monday night game Janet Mondrik has been sick but she came in and did a real good job and was high point scorer."

"With the varsity consistency again is the main problem."

Yoe Girls Fall To Giddings

Giddings grabbed wins over Yoe girls junior varsity and varsity teams in Monday night basketball action at Yoe gym.

In the JV game Giddings revenge an earlier loss to the Yoe JV by beating them 29-24.

In the varsity action the Yoettes lost to Giddings 52-31.

The 5 point deficit that the Yoette JV faced after the first quarter was the final one. The Yoettes came back in the second half after trailing 16-10 at the end of the first half.

Janet Mondrik came off the bench to bring the Yoettes within two, in the final stanza 22-20. Tullulah Green pumped in 9 and Renee Shigut had four to round out the scoring.

The Yoe JV went to the grace line 18 times and scored 7 while Giddings sank 9 of 19.

In the varsity game Giddings had a hot first quarter and pulled out a 12-4 first quarter lead.

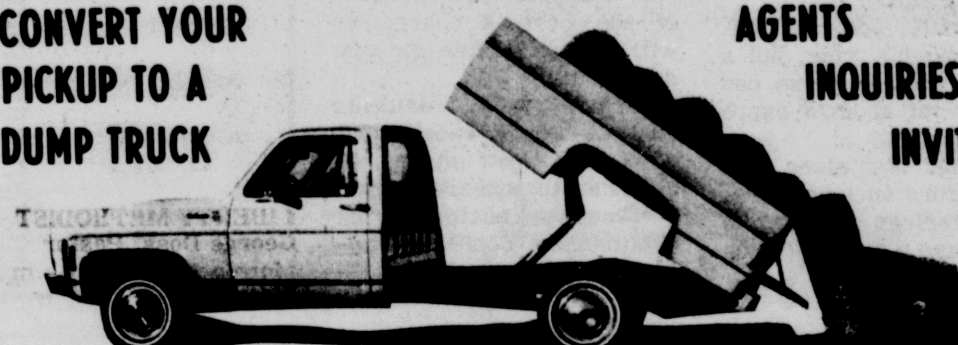

In the next quarter the Yoettes matched the Giddings field goals with each team hitting two. The difference came on the free throw line where Giddings picked up 8 free points in the quarter. The Yoettes scored 13 in the second stanza while Giddings pumped in 14 more points.

Carol Morris led the scoring attack for the Yoettes with 11 while Evelyn Pittman hit the double figures with 10. Georgia Wheeler sank 6 points and Janis Freimel had 4.

The Yoettes went to the free throw line 20 times and sank 5 while Giddings scored 16 of 31.

1940 US Individual Income Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. I recently moved to a State which taxes personal property. How do I determine which of these qualify as deductible personal property taxes?

A. First, a deductible personal property tax must be an ad valorem tax, that is, one based on the value of the personal property. It must also be imposed on an annual basis, even if it is collected more or less frequently.

A tax based on anything other than the property's value is not deductible. Therefore, if property such as your car is taxed on its weight or gas mileage, only the portion of the tax attributable to the value is deductible.

the value is deductible.

The tax may be considered to be imposed on personal property even if in form it is imposed on the exercise of a privilege. For example, an ad valorem tax called a registration fee, imposed on your car for the privilege of using the highways, is still considered a property tax.

Q. I understand that I may be able to claim additional tax credits for some of my exemptions this year. For which of them may I claim the credits?

A. Provisions of the Tax Reduction Act of 1975 allow you to reduce their income tax liability by

\$30 for each person for whom you are entitled to claim a personal dependency deduction. Personal exemptions may be claimed for yourself, your spouse and each dependent. However, you may not claim the additional credits for age and blindness exemptions. The credit is in addition to the \$750 deduction allowed for each exemption to which you are entitled. However, your total personal exemption credit may not exceed your income tax liability.

Q. I am supporting my parents who qualify as my dependents and who live with me, and I think I may be entitled to a head of household tax rate. How can I qualify?

A. Generally, you must be unmarried on the last day of the year, maintain the household for your dependent parents and contribute over half the cost of its maintenance. You need not live in the same home as your parents.

Q. I have been a full time college student for the past four years, and have earned no more than \$4,000 in any one of those years. This year I worked full time and earned considerably more. Can I use income averaging to reduce my taxes this year?

A. To qualify for income averaging you must have been a U.S. citizen or resident throughout your computation year, 1975, and throughout your base period, the four years immediately preceding your computation year.

You must also have furnished at least 50 percent of your total support during your base period. If you are married and file a joint return, your spouse also must meet the support test, unless your

spouse provided no more than 25 percent of your combined adjusted gross income.

If you meet these requirements, then you must determine whether your average income exceeds \$3,000. The income averaging computation requires several steps. They are explained in IRS Publication 506, Computing Your Tax under the Income Averaging Method, available at your IRS office.

Q. I have heard that certain people qualify for a low income allowance. What is this, and how do I find out if I qualify?

A. A low income allowance is designed to give low income taxpayers a tax free allowance, removing many of them from the tax rolls.

The low income allowance is already computed into the tax tables accompanying your 1040 package, so you do not have to worry about meeting any qualifications. With the exception of the columns for married taxpayers who file separate returns, the Tax Tables give you either the percentage standard deduction or the low income allowance, whichever is larger.

Q. My employer usually distributes gifts to employees around the holidays. Must I include the gifts I receive as income?

A. If your employer makes a general distribution of such items as turkeys, hams or other gifts of nominal value to promote goodwill during the holidays, the value of the gift is not considered income.

However, if your employer gives cash bonuses, gift certificates or other readily convertible items of cash value, they are considered as income to the employee and their market value must be reported as additional salary or wages.

New Phone Books On Their Way

Thirty-two characters from American history--all talking on various types of past and present telephones--will dress the cover of the new Cameron telephone directory.

"This year's phone book cover commemorates the 200th birthday of the United States and the 100th anniversary of the invention of the telephone," said Dennis Richter, manager for Southwest Bell.

"The cover is a special 'Happy Birthday' card to all our customers who will join in celebrating these two important anniversaries," Richter said. "It will appear on more than 184 million Bell System telephone directories throughout the U.S."

Delivery of more than 3200 directories began Jan. 14. The artists who designed the cover is Stanley Meltzoff of Fair Haven, N. J. His work has appeared in Saturday Evening Post, Life, Scientific American, National Geographic, and Sports Illustrated.

A complete identification of the cover's characters will appear inside the new directories.

Richter said residents customers will receive one copy of the new phone book in order to conserve paper.

"However, customers may obtain more copies by calling the business office," Richter said.

Test Drive New Car Before You Purchase It

If you're a new car shopper and have narrowed your choice to a couple of models, a road test is the next step to a final decision.

"A thorough test drive will help determine if the vehicle meets your individual or family needs and whether it's suited to your personal driving requirements," says Wm. M. Coffey, general manager of Texas Division.

Servicemen

JACK DENT

Airman Jack T. Dent, son of Mr. and Mrs. G. A. Spoon of Cameron, has graduated at Sheppard AFB, Tex., from the U. S. Air Force refrigeration specialist course conducted by the Air Training Command.

The airman, who studied the principles of refrigeration, air conditioning, and equipment cooling, is being assigned to Kelly AFB, Tex., for duty with a unit of the Air Force Logistics Command.

Entry Interest

A drab entry hall can be brightened with western lumber paneling, installed diagonally for added interest.

"Never buy a car without first driving it yourself. A road test is essential to an informed decision. 'Don't judge a book by its cover' is good advice to keep in mind here," Coffey continued.

The AAA official suggests testing the vehicle over various road conditions and in different traffic situations. Drive the car on the highway and in residential areas, over smooth and rough roads, if possible. Parallel park the car and make a tree-point turn to check maneuverability. And test drive a vehicle which is equipped with the same steering, transmission, and braking options you plan to purchase.

The AAA club offers the following list of items to check while road-testing a vehicle:

--the car should be comfortable and accommodate your family and storage needs reasonably well. Make seat adjustments until you're comfortable. Naturally, if you experience a backache or similar discomfort after

driving a short time, the car isn't for you.

--control knobs, gear shift, and the like should be within easy reach. Operate wipers, horn, radio, etc., during the drive.

--good front, rear, and side visibility is vital. Check visibility during the ride, specially when backing.

--the vehicle should accelerate easily, corner without excessive sway, and ride well over various road conditions.

--braking should be easy and smooth.

--listen for any engine or interior noises. Be alert for vibrations or sounds that may annoy you after a long ride. Check for any bothersome interior drafts.

"Naturally, you can't expect an hour's ride, but a 15- to 20-minute drive can reveal a lot about a car," says Coffey.

The road test along with other factors such as price, dealer offerings, and the like should make a final decision a simple matter.

"There's no place like NOME!" SECRETARY OF STATE Seward~1867.

Alaska BOUGHT from Russia for \$7 MILLION.

A lot of people thought it was a mistake. "Seward's folly," they called it.

Just a lot of ice and igloos.

But Alaska has yielded furs, fish, forest products and minerals worth many times the purchase price.

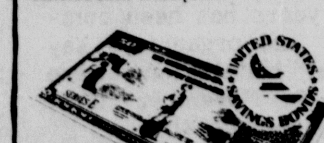

And that purchase was made possible when Americans bought up a government issue of six-percent five-twenty bonds in 1865.

Today, Americans still help their country grow by buying United States Savings Bonds at banks or through the Payroll Savings Plan at work.

Slower Food Price Rise Predicted For This Year

COLLEGE STATION Food prices will probably rise at an even slower pace in 1976 than they did in 1975. Mrs. Gwendolyn Clyatt, predicted this week.

The consumer marketing information specialist is with the Texas Agricultural Extension Service, The Texas A&M University System. She said reports now show that increases for 1975 were slower than those of 1974.

In looking toward 1976, one commodity expected to have a better year will be pork--with increasing supplies and lower prices before the year end, the specialist added.

Taking a look at the immediate future, Mrs. Clyatt said fryer chicken are the meat item to watch in upcoming weeks--in case grocers decide to "special" the

birds because of recent decreases in wholesale prices.

"In other sections of the meat department, beef and pork prices will remain the same, although some beef specials are likely.

"Exceedingly good values are usually found on chuck cuts--with other good values on corned beef, ground beef, round steak, liver, and standing rib roast.

"Occasional features will appear on pork steak, Boston butt roast, bacon, frankfurters, and liver," Mrs. Clyatt noted.

At produce counters, January is a very good month for citrus, cabbage, and carrots--but this year it finds dry onion and cauliflower supplies unable to meet demands, she said.

Apples and pears are in good supply and avacadoes will be available during coming weeks at moderate prices.

Two Alcoans To

Retire In January

Two employees at Aluminum Company of America's Rockdale Works with an accumulated 45 years service will retire Jan. 1, according to Fred P. Bergeron, Texas area manager.

Delbert D. Evans of Route 1, Thorndale, a guard at Alcoa's Central Texas plant since 1952, and Pat M. Simpson, a welder at the Rockdale facility since 1953, will end their careers the first of the year.

1040 Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. I recently moved to a State which taxes personal property. How do I determine which of these qualify as deductible personal property taxes?

A. First, a deductible personal property tax must be an ad valorem tax, that is, one based on the value of the personal property. It must also be imposed on an annual basis, even if it is collected more or less frequently.

A tax based on anything other than the property's value is not deductible. Therefore, if property such as your car is taxed on its value, and other criteria such as weight or gas mileage, only the portion of the tax attributable to the value is deductible.

The tax may be considered to be imposed on personal property even if in form it is imposed on the exercise of a privilege. For example, an ad valorem tax called a registration fee, imposed on your car for the privilege of using the highways, is still considered a property tax.

Q. I understand that I may be able to claim additional tax credits for some of my exemptions this year. For which of them may I claim the credits?

A. Provisions of the Tax Reduction Act of 1975 allow you to reduce their income tax liability by

\$30 for each person for whom you are entitled to claim a personal dependency deduction. Personal exemptions may be claimed for yourself, your spouse and each dependent. However, you may not claim the additional credits for age and blindness exemptions. The credit is in addition to the \$750 deduction allowed for each exemption to which you are entitled. However, your total personal exemption credit may not exceed your income tax liability.

Q. I am supporting my parents who qualify as my dependents and who live with me, and I think I may be entitled to a head of household tax rate. How can I qualify?

A. Generally, you must be unmarried on the last day of the year, maintain the household for your dependent parents and contribute over half the cost of its maintenance. You need not live in the same home as your parents.

Test Drive New Car Before You Purchase It

If you're a new car shopper and have narrowed your choice to a couple of models, a road test is the next step to a final decision.

"A thorough test drive will help determine if the vehicle meets your individual or family needs and whether it's suited to your personal driving requirements," says Wm. M. Coffey, general manager of Texas Division.

"There's no place like NOME."

SECRETARY OF STATE Seward ~1867.

Alaska BOUGHT from Russia for \$7 MILLION.

A lot of people thought it was a mistake.

"Seward's folly," they called it.

Just a lot of ice and igloos.

But Alaska has yielded furs, fish, forest products and minerals worth many times the purchase price.

And that purchase was made possible when Americans bought up a government issue of six-percent five-twenty bonds in 1865.

Today, Americans still help their country grow by buying United States Savings Bonds at banks or through the Payroll Savings Plan at work.

Seward knew what he was doing then.

Be in the know, now. Buy United States Savings Bonds.

Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

200 years at the same location.

Q. I have been a full time college student for the past four years, and have earned no more than \$4,000 in any one of those years. This year I worked full time and earned considerably more. Can I use income averaging to reduce my taxes this year?

A. To qualify for income averaging you must have been a U.S. citizen or resident throughout your computation year, 1975, and throughout your base period, the four years immediately preceding your computation year.

You must also have furnished at least 50 percent of your total support during your base period. If you are married and file a joint return, your spouse also must meet the support test, unless your

spouse provided no more than 25 percent of your combined adjusted gross income.

If you meet these requirements, then you must determine whether your averageable income exceeds \$3,000. The income averaging computation requires several steps. They are explained in IRS Publication 506, Computing Your Tax under the Income Averaging Method, available at your IRS office.

Q. I have heard that certain people qualify for a low income allowance. What is this, and how do I find out if I qualify?

A. A low income allowance is designed to give low income taxpayers a tax free allowance, removing many of them from the tax rolls.

The low income allowance is already computed into the tax tables accompanying your 1040 package, so you do not have to worry about meeting any qualifications. With the exception of the columns for married taxpayers who file separate returns, the Tax Tables give you either the percentage standard deduction or the low income allowance, whichever is larger.

Q. My employer usually distributes gifts to employees around the holidays. Must I include the gifts I receive as income?

A. If your employer makes a general distribution of such items as turkeys, hams or other gifts of nominal value to promote goodwill during the holidays, the value of the gift is not considered income.

However, if your employer gives cash bonuses, gift certificates or other readily convertible items of cash value, they are considered as income to the employee and their market value must be reported as additional salary or wages.

New Phone Books On Their Way

Thirty-two characters from American history--all talking on various types of past and present telephones--will dress the cover of the new Cameron telephone directory.

"This year's phone book cover commemorates the 200th birthday of the United States and the 100th anniversary of the invention of the telephone," said Dennis Richter, manager for Southwestern Bell.

"The cover is a special 'Happy Birthday' card to all our customers who will join in celebrating these two important anniversaries," Richter said. "It will appear on more than 184 million Bell System telephone directories throughout the U.S."

Delivery of more than 3200 directories began Jan. 14. The artists who designed the cover is Stanley Meltzoff of Fair Haven, N. J. His work has appeared in Saturday Evening Post, Life, Scientific American, National Geographic, and Sports Illustrated.

A complete identification of the cover's characters will appear inside the new directories.

Richter said residents customers will receive one copy of the new phone book in order to conserve paper.

"However, customers may obtain more copies by calling the business office," Richter said.

Slower Food Price Rise Predicted For This Year

COLLEGE STATION Food prices will probably rise at an even slower pace in 1976 than they did in 1975, Mrs. Gwendolyn Clyatt, predicted this week.

The consumer marketing information specialist is with the Texas Agricultural Extension Service, The Texas A&M University System. She said reports now show that increases for 1975 were slower than those of 1974.

In looking toward 1976, one commodity expected to have a better year will be pork--with increasing supplies and lower prices before the year end, the specialist added.

Taking a look at the immediate future, Mrs. Clyatt said fryer chicken are the meat item to watch in upcoming weeks--in case grocers decide to "special" the

birds because of recent decreases in wholesale prices.

"In other sections of the meat department, beef and pork prices will remain the same, although some beef specials are likely.

"Exceedingly good values are usually found on chuck cuts--with other good values on corned beef, ground beef, round steak, liver, and standing rib roast.

"Occasional features will appear on pork steak, Boston butt roast, bacon, frankfurters, and liver," Mrs. Clyatt noted.

At produce counters, January is a very good month for citrus, cabbage, and carrots--but this year it finds dry onion and cauliflower supplies unable to meet demands, she said.

Apples and pears are in good supply and avocados will be available during coming weeks at moderate prices.

Two Alcoans To

Retire In January

Two employees at Aluminum Company of America's Rockdale Works with an accumulated 45 years service will retire Jan. 1, according to Fred P. Bergeron, Texas area manager.

Delbert D. Evans of Route 1, Thorndale, a guard at Alcoa's Central Texas plant since 1952, and Pat M. Simpson, a welder at the Rockdale facility since 1953, will end their careers the first of the year.
